Step 8: With the image at full size, press and hold the image and a menu of options will pop up. Some of these options are “Share Image, View Image, Copy Image Location, Save Image, or Set Image As”. You have 2 options here, you can share the photo right away by selecting the “Share Image” option or you can save the image by selecting “Save Image”. For this “How To” we will be saving the image.

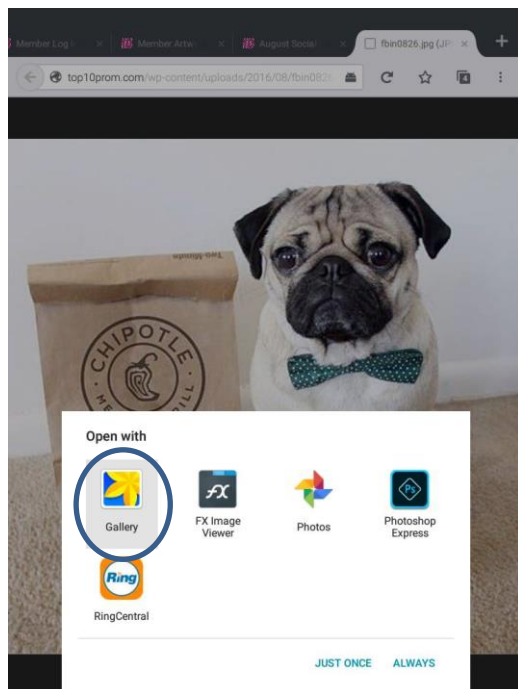

Step 9: Once the menu has opened select Save Image. The image will then begin downloading.

Step 10: Once the image has completed downloading swap down from the top of your screen to open the notification menu and you should see the download, as it would say **Download complete**.

Step 11: Now that you have downloaded the image, you should find the image in your download folder in your photo gallery. Open the image with your preferred photo app.

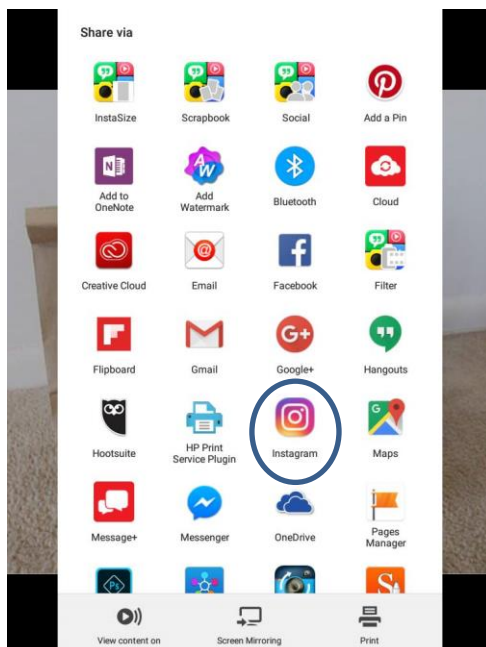

Step 12: Select the image that you want to share. Once you have opened the image you will have an option for sharing.

Step 13: Select the app that you would like to share to.

Step 14: Congratulations you have shared your saved image from your tablet!
